PROFESSIONAL SUMMARY

Fast-learning Computer Science engineering student with strong C programming skills and solid knowledge of MySQL and database design. Currently learning full-stack development (MERN) and building foundational skills in cloud management. Interested in networks and communication; seeking roles in Software Development or DevOps.

EDUCATION

B.E. in Computer Science and Engineering – National Institute of Engineering **2023–2027**
CGPA: 9.62

Sadvidya Semi-Residential PU College, Mysore – *Percentage: 96.67%* **2023**

Swami Vivekananda Educational Institute, Mysore – *Percentage: 97.92%* **2021**

TECHNICAL EXPERTISE

- **Programming Languages:** C, C++, JavaScript, Python, Java
- **Full-Stack Development:** React.js, Node.js, Express.js, HTML5, CSS3
- **Databases & Storage:** MySQL, MongoDB
- **Version Control & Collaboration:** Git, GitHub

TECHNICAL PROJECTS

- **RecipeVault** (*MySQL, HTML, CSS, Bootstrap, JavaScript*)
  - Architected a scalable database system with optimized SQL schema for high-performance Personal Recipe Management System
  - Designed a recipe management system with clean UI and structured data handling.
- **BOOKSLOT** (*React, Node.js, JavaScript, Express.js, OAuth 2.0, Socket.IO*)
  - Developed a full-stack slot booking platform using React.js, Node.js and Express, enabling real-time reservation management across services.
  - Implemented role-based signup flow and responsive UI for seamless onboarding of different user types.
  - Integrated efficient database design with MySQL to ensure fast queries and reliable slot availability tracking

PROFESSIONAL CAPABILITIES

- **Software Development:** Proficient in full-stack application building, API integration, database optimization, and scalable infrastructure
- **Team Collaboration:** Familiar with Agile workflows and Scrum-based project coordination, documentation, cross-functional team coordination
- **Continuous Innovation:** Passionate about emerging technologies and automation

ACHIEVEMENTS

Won First Prize for the project BOOKSLOT in the following competitions:

- Innovista 2.0 (CSE, CS(AIML), NIE College)
- VoltERa (MRIT College)
- V-VISION (VVCE College)

Hackathon Participation:

- Participated in **Smart India Hackathon 2025** as part of team **CodingBees**, tackling Problem Statement #25011 – Smart Curriculum Activity & Attendance App. The journey involved brainstorming, prototype refinement, and teamwork.
